## NORMAN DAY APPOINTED A NEW GROUP PARTNER AT LEXSTONE LAWYERS

Lexstone Lawyers has appointed Norman Day as a new Group Partner with effect from 1 September 2019.

Norman initially joined Lexstone Lawyers in 2017 as a consultant. His areas of specialism are finance and corporate as well as private wealth. Norman is an English solicitor having previously worked at Ogier and Hatstone Lawyers. He also spent four years with a fast growing technology scale up based in Helsinki advising on international growth, SaaS contracts and ultimately facilitating a successful 'exit' for some of their founders.

His client base encompasses global banks, financial intermediaries, private clients entrepreneurs and technology companies.

Agnieszka Bielanska, a Group Partner, at Lexstone Lawyers commented "We warmly welcome Norman to the partnership where he will be invaluable to the future growth of the partnership".

Norman is the sixth Group Partner of Lexstone Lawyers since it was established in 2015. Norman commented:

*"I am absolutely thrilled in becoming a Group Partner at Lexstone Lawyers, a firm offering innovative solutions to a growing following of top tier clients from both Jersey and London. For me Lexstone is about relationships, rather than simply transactions, business ultimately being about people. Lexstone looks after its people, both clients and staff, and by so doing achieves excellence. I am excited for our future."*
